

Anine Eschberger Wortmann – Director
Architect, AAA, OAQ, MRAIC
BSc. Arch, BAS Hons, M.Arch (Prof), MSc (Building) CPM.

Anine is a Calgary-based architect with more than 15 years of experience in both design and construction. She has served on the Board of Directors of the Consulting Architects of Alberta since November 2025 and has been a member of the Procurement and Contracts Committee since April 2025. Anine is a strong advocate for procurement reform that enables small and medium-sized architectural practices to participate more fully in the public sector.

Drawing on her German and South African heritage, Anine's design philosophy reflects her belief that exceptional architecture is created at the intersection of creativity, technical precision, and social impact. She was inspired early in life by her father's career as a structural engineer specializing in suspension bridges and guided by her lifelong passion for sketching and art. Architecture became a natural path where these influences converge. This combination of artistic vision and technical expertise continues to shape her practice and has allowed her to play a key role in delivering projects across the educational, retail, and residential sectors.

Outside of her professional work, Anine enjoys urban sketching while traveling. She also spends time running, hiking, and being outdoors with family and friends, activities that reflect her appreciation for both community and the natural environment.
